First Day.

The Legislature Assembly was opened by His Most Gracious Majesty the King pursuant to Royal Proclamation the 30th day of April A.D. 1872 at 12 Oclock noon

After prayer by the Venerable Arch Deacon Mason, His Majesty then delivered the following speech to the Noble Representatives as follows:

Noble Representatives,

At the opening of the Legislative Assembly of 1870, I commended its attention to Foreign & Inter Islands Steam Communications, and the Assembly of that year responded by making liberal appropriation. The means placed at the disposal of My Government for those purposes have been used as it was intended. The Report of my Ministers of the Interior will show you the gratifying fact that steam communication between the Islands is likely to be self supporting, and will encourage the hope that the public necessity will call for an increase of that service at an early day. Steam communication with the Coast of America, and with the New Zealands and Australian Colonies, seems now to be firmly established and I have not a doubt that the money devoted by us to this object will be found to be wisely expended

During the last two years agriculture has repaid handsomely those who have pursued it with courage, diligence and enterprise. It is the life of the nation not only from its profitable returns, but as tending directly to the increase of the population, and the

prolongation of vigorous life. I therefore hope that you will not neglect to further its interests by every means in your power. But whilst giving your earnest consideration to it. I trust that every other interest will receive likewise its share of your attention.

Our relations with Foreign Governments continue to be of the most friendly nature. Since the adjournment of the Last Legislative Assembly, I have concluded a Treaty of Amity and Commerce with His Majesty the Emperor of Japan, the text of which will be laid before you. The Treaty of Reciprocity which was at the last Session of this body, before the Senate of the United States failed to receive the number of votes necessary for its ratification. I have directed notice to be given of my desire for the termination of those articles of the Treaty with France signed at Honolulu October 29th 1869, which it is agreed by the 26th Article of that Treaty, may cease to have effect after one year's notice This will leave you free to make such changes in the Tariff as you, in your wisdom may think proper

The Report of my Minister of Finance will be present to you most gratifying evidence of the good condition of our Finances

The Interests of the cause of Education have never been more thoroughly attended to, and the results of that attention have been most encouraging

Justice has been administered equally and impartially to all. Peace and contentment & prosperity have reigned within our borders

All the works which have been undertaken and completed, as well as those which are now projected for the

Public benefit, have had and do have my most hearty concurrence, and I therefore commend to you most earnestly the recommendations of my Ministers in this respect.

It is my painful duty to inform you that the Widow of my predecessor, His late Majesty Kamehameha 3 deceased at her residence in Honolulu 20th September 1870

Representatives:

It is with great pleasure that I see amongst you as, many who in former years, have had experience in Legislative business, and who by their returns to this Assembly, give evidence that the people have the same confidence in their experience, which I myself entertain

Noble Representatives:

I pray most humbly and heartily, the King of Kings so to rule your Councils, that every thing may be ordered for the public good, and with this prayer I commend the interest of Our Country, to your wisdom, patriotism, and fidelity, in which I have unfailing reliance

We do now declare the Legislature of the Kingdom opened.

The undersigned the Committee appointed by the Legislative Assembly of Your Majesty's Kingdom present to Your Majesty the respectful acknowledgements of the Members of the Assembly for the Loyal and Gracious Speech at the opening of the present Session
The liberal appropriation made by the Legislature of 1870 to enable Your Majesty's Government to equally aided Foreign and Inter-Islands Steam Communication was in the opinion of Your Majesty's people a proper measure, commensurate in view of the means of the Government and calculated to encourage and continue the friendly intercourse, and the visits of travellers to these shores
We are gratified to know that Steam Communication between the Islands is likely to be self supporting, and we are unanimous in the opinion that the appropriation for the same should be increased
The interests of Agriculture and Manufactures shall receive every attention at our hands, without however

neglecting other important interests of the County, from which the Revenues of the Government are derived. Agriculture is indeed a pursuit tending directly to the increase of the population, and the promulgation of vigorous life of Your Majesty's people

The Representatives of the people are gratified to learn that our relations with Foreign Governments continue to be of the most friendly nature. The conclusion of a Treaty with His Majesty the Emperor of Japan, increases our friendly and commercials relations with the nations of the earth.

We regret that the Treaty of Reciprocity proposed by Your Majesty's Government, and which was for a long time before the Senate of the United States, failed of being ratified.

The circumstances connected with the Treaty with France, signed at Honolulu Oct. 29. 1857 will receive our careful attention

The fact that the Finances of the Kingdom are in a good condition, is a source of gratification to us.

We rejoice with Your Majesty to learn, that the interests of the cause of the cause of Education, have never been more thoroughly attended to than during the past two years

Our best endeavors shall be directed to aid and forward the work of Public Improvements for the benefit of Your Majesty's Government.

Your Majesty's people join their condolences and the expressions of their deep sorrow at the removal by death of the Widow of Your Majesty's Predecessor Kamehameha III

Referred to Committee on Miscellaneous Subjects.

Hon Jas Bishop. Chairman of Select Committee to whom was referred the resolution relating to the seats of the Hons. D. H Hitchcock and L. Lui Members from Hilo and Hamakua, presented its Report as follows:

The undersigned Your Committee to whom was referred the Resolution to declare vacant "the seats now held by Judges D H Hitchcock and L. Lui Members elect for the Districts of Hilo and Hamakua respectively, as being held contrary to the provisions of Section 818 of the Civil Code beg to Report. That the matter that the Committee is called upon to consider, is purely a question of law and not of policy

The Section of the Civil Code referred to is of earlier date than the present Constitution, and excludes the Justices of all the Courts from seats in the House of Representatives Article 20 of the Constitution excludes Judges of all Courts of Record from seats in the Legislature Assembly and if it had been intended to include Justices of the Police and District Courts also, it would probably have so stated.

Article 61 of the Constitution defines the qualifications necessary for a Representative of the People, and any Act increasing or reducing those qualifications, or excluding a person possessing all of them, because of his profession or calling would be void

Article 78 of the Constitution repeals all laws and parts of laws then existing repugnant to the Constitution and declares all laws null and vois that are contary thereto.
Courts of Record are those Courts that are reguired to keep a full Record of their proceedings and that have a Seal, and whose Records under that Seal, are taken and considered as evidence. Such are the Records of the Supreme and Circuit Courts. But the minutes of proceedings &c kept by the Police and District Justices are not taken as evidence before the Supreme and Circuit Courts except so far as they are confirmed by the oath in open Court of the Justice who made the minutes, and are not kept or given under Seal.
To show that the Legislature that passed the Civil Code did not consider the Police and District Courts to be Courts of Record, we refer to Chap XV of that Code page 211 of the English version, which is headed "Of the Island Courts, not Courts of Record". and refers first of all to Police Courts
We are of the opinion that the Justices of the Police and Distruct Courts are not excluded by the Constitution from being Representatives of the people, and that so much of Section 818 of the Civil Code as refers to these Officers is repugnant to the Constitution, and therefore null and void
And as to the Hon D. H. Hitchcock and Hon L. Lui members elect from the Districts of Hilo and Hamakuas respectively are not Judges of Courts of Record, we respectfully recommend to the Assembly to postpone indefinitely the Resolution above mentioned
Hon Iw Kahananui moved the adoption of the Report.

Royal Commission

Kamehameha V by the Grace of God King of the Hawaiian Islands

To our well beloved subjects, the Honorable Elisha H Allen Chief Justice of the Supreme Court and Chancellor of Our Kingdom, Knight Grand Cross of Our Royal Order of Kamehameha 1st. and His Excellency Paul Kahaolelua Governor of Our Island of Maui, Knight Commander of Our Royal Order of Kamehameha 1st, Greeting:
Whereas, Our Legislative Assembly now sitting in the City of Honolulu, has informed Us that there is no further public business which requires its attention and Whereas, We have replied that it is Our Royal

will and pleasure to prorogue the said Assembly on Monday the 29th day of this present month of July at 12 o'clock noon, and Whereas Our Royal Presence will not be practicable at the prorogation of the said Legislative Assembly:

Now therefore Know all men to whom these presents may come, that We have constituted and appointed and by these presents do constitute and appoint you Our Special Commissioners to make Known Our Royal Pleasure, to the said Legislative Assembly on the day appointed as aforesaid

And we do hereby give unto you Our said Commissioners full power and authority in Our Royal name to declare the said Assembly prorogued in the same manner, and with like effect as might done were We personally present.

And we do hereby command all Our loyal subjects and more especially Our Ministers of State, and all Our Nobles & the Representatives of Our People to take notice of this Our Commission and Appointment, and to govern themselves accordingly

Given under Our Royal Sign Manual at Iolani Palace in the city of Honolulu, this Twenty Seventh day of July, in the Year of Our Lord 1872.

Speech of His Majesty the King.

Nobles & Representatives,

I congratulate you upon the termination of your protracted labors, and hope that you may be permitted to return in safety to your several homes. I shall take care that the Appropriations which you have made on a liberal scale for the maintenance of good Government, the promotion of the health of my people, and carrying on Public Improvements of Our country, shall continue to be expended with the strictest economy, and the utmost regard for the public good.

By the Constitutions of Government and System of Representation in the Hawaiian Kingdom, prominent and influential citizens should consider it their duty to aid the administration of Public Affairs in the Legislative Assembly. In the performance of such duties, demands are periodically made upon the patience and intelligence of the members. It is to be hoped that such demands will not be so excessive as to alarm settlements of judgement and opinions and prevent them from undertaking public duties.

I desire to express my high appreciation of all those who at personal sacrifices have given their time and services to Legislative duties.

The periodical coming together of the Legislative Assembly is most beneficial in giving opportunity to compare opinions, to dispel prejudices, and to consult for the public good, even though no considerable changes may be found necessary in the laws.

I sincerely trust that the few changes in the Laws

which you have thought advisable, may be found effectual for good.

In returning to your constituencies you will be enabled to assure them that this Government cares unremittedly for their welfare, and you will likewise give them the advantage of your experience in public business, and exhort them to a continued love of this county and its institutions.

Noble Representatives

I commend you to Our Heavenly Father, praying that He may continue His blessings to you and Our country, and vouchsafe to you all prosperity and length of life.

I now declare this Legislative Assembly Prorogued

Lt. Governor

Prov. Legislative Assembly
